SPECIFIED ILLNESS COVER

Specified illness cover is a benefit which pays you a lump sum if you are diagnosed with one of 48 conditions we cover. You can use this lump sum to help maintain your and your family's standard of living, pay for medical bills or child care and to help you cope during a difficult time.

Specified illness cover will also provide you with an additional payment for a further 41 conditions. These conditions are less likely to be life altering. The additional payment is €15,000 or half your specified illness benefit amount, whichever is lower. However, for coronary angioplasty the additional payment is €40,000, or 75% of your specified illness cover amount - whichever is lower.

COVER - ADDITIONAL PAYMENT

We have identified 41 additional, less serious conditions that we will make a separate additional payment on if you have a specified illness cover. This additional payment is €15,000 or half of your specified illness cover amount, whichever is lower. For coronary angioplasty, the additional payment is €40,000 or 75% of your specified illness cover amount, whichever is lower. Please see your terms and conditions booklet for more information.

The additional payment on these illnesses is totally separate from your main specified illness cover benefit. That means it does not generally affect the amount you could receive if you need to make a specified illness claim for one of the 48 conditions we cover on a full payment basis at a later date.
