

5 REASONS WHY: PENSION LIFE INSURANCE

To Provide Corporate style Benefits to your Family

Many jobs come with attractive benefit packages including death in service benefits for employees. Why not award yourself the same kind of package? Pension life insurance would provide necessary funds to your family should the worst happen

To Protect your pension pot if you should die

You may already have a pension plan in place, with a target set for your final fund amount. If you should die before you retire, pension term assurance could make up the shortfall, and protect your loved ones by ensuring you still meet your pension pot target.

To Avail of Tax Relief Available

The advantage of Pension Life Insurance is that it costs less. This is because income tax relief can be claimed at the marginal rate on the premiums/cost of the benefits.

To Boost Motivation

A great way to hold on to good staff is with a good overall benefits package. Pension term insurance is a great tax efficient and low cost way to do this.

To Take Care of you:
Knowing you've taken the right steps to protect your family brings peace of mind
